Charting Equine Assisted Services (EAS)

The world of EAS

by and for HETI members

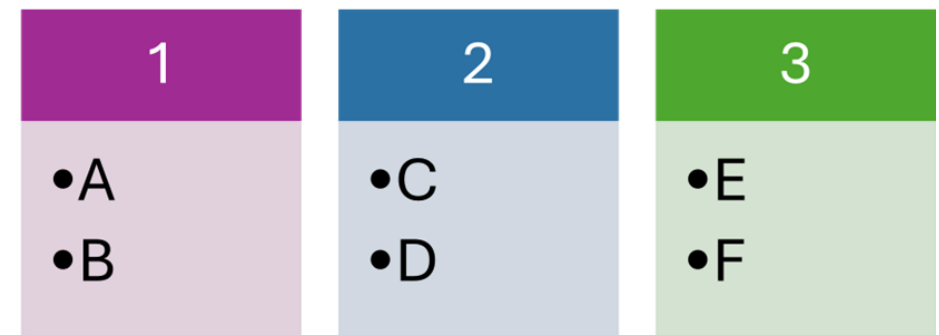

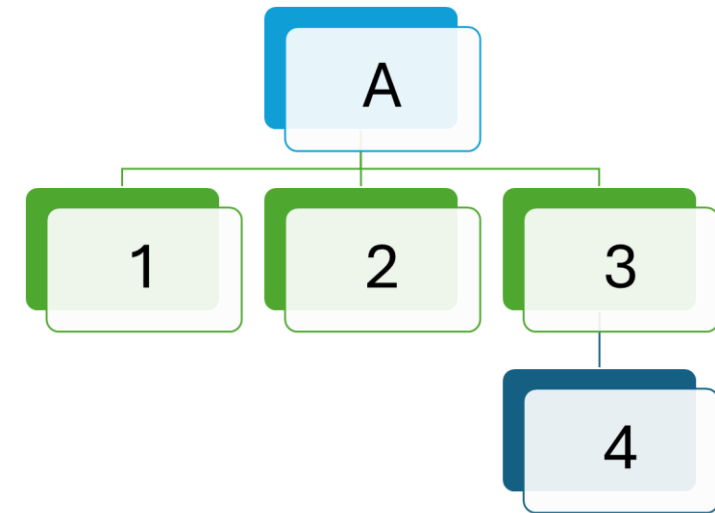

Today we will discuss the possibility of creating a visual representation of the various services included in EAS, on a way that could integrate the different systems that exist around the world.

The benefits of this chart would be to simplify international collaboration, provide statistics and highlight success stories and testimonials.

What is an Organizational chart?

It is an infographic representation of complex information or data with minimal text in a way that enhances understanding and retention.

The tools we will utilize today
include:

- Examples of current charts
- Your expertise

Let's see examples of existing charts:

THERAPY

- Counseling
- Occupational therapy
- Physical therapy
- Psychotherapy
- Speech-language pathology

LEARNING

- Equine-assisted learning in education
- Equine-assisted learning in organizations
- Equine-assisted learning in personal development

HORSEMANSHIP

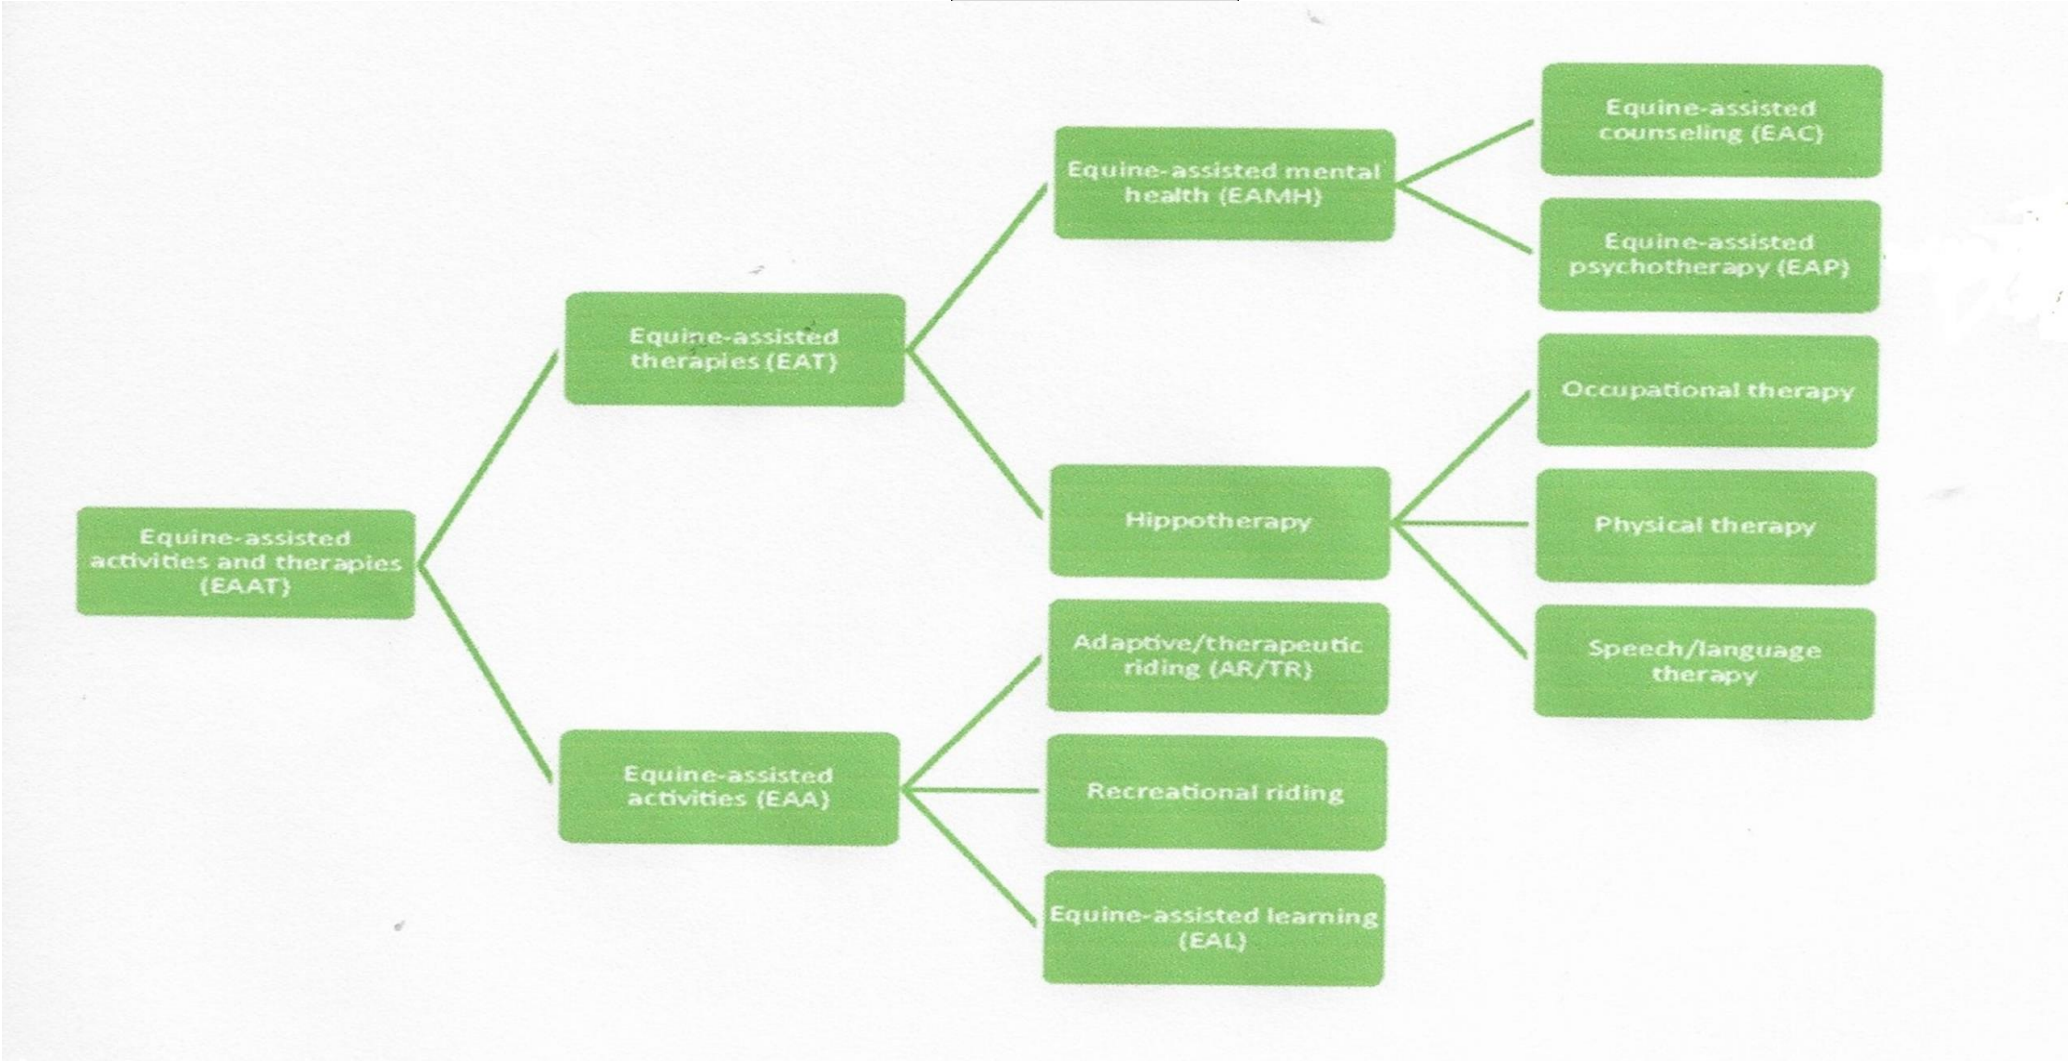

- Adaptive equestrian sports
- Adaptive riding or therapeutic riding
- Driving
- Interactive vaulting

Equine-assisted Services

Research Gate Example of a nomenclature for equine assisted activities and therapies based upon the work of Leif Hallberg
